

Adding Google Translate Extension

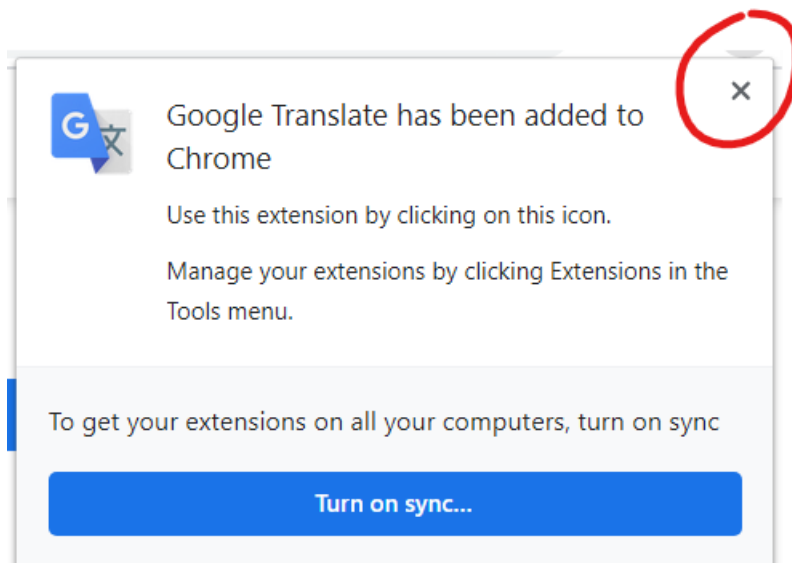

Step 1: Go to the website: <https://chrome.google.com/webstore/detail/google-translate/aapbdbdomjkkjkaonfhkkikfgjllcleb?hl=en-GB>. Then click on Add to Chrome.

Step 2: Then click on Add Extension.

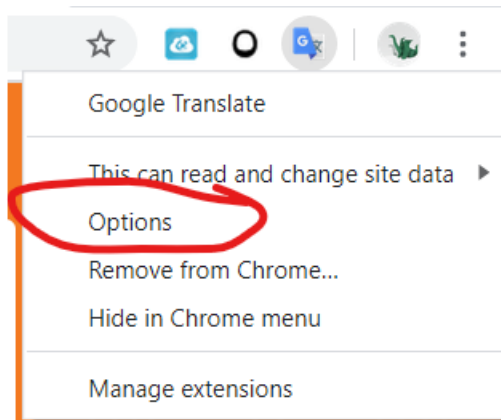

Step 3: Click on the X and do not turn on sync.

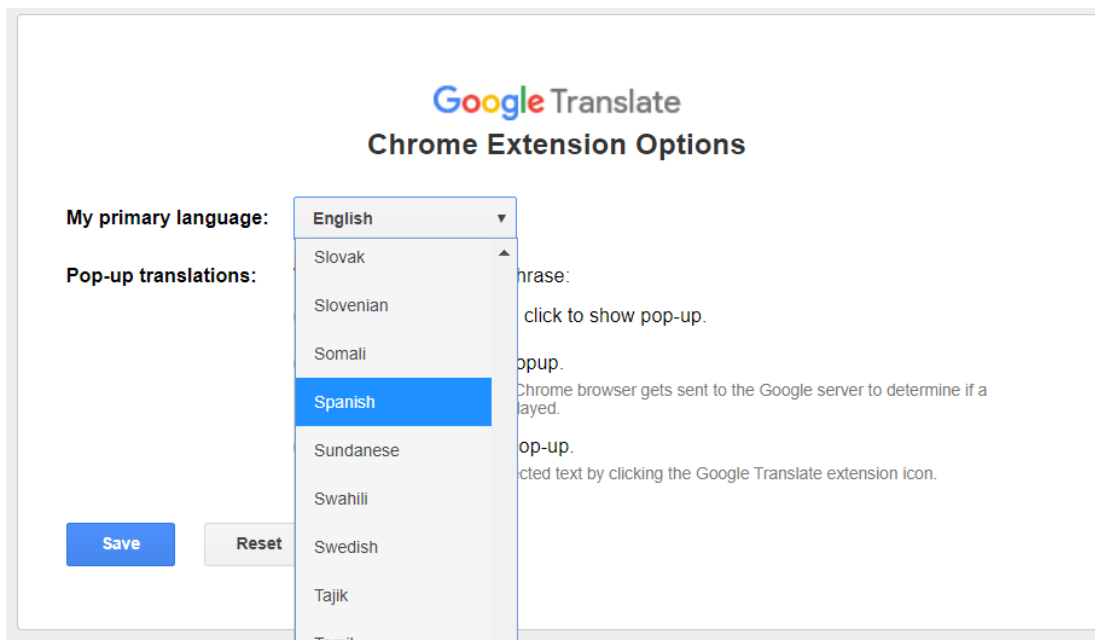

Step 4: At the end of the address line you will see a Google Translate icon. Right click on this icon to set the language for translation.

Step 5: After right clicking on the Google Translate picture, select the options menu.

Step 6: A new window will pop up. Click on the arrow next to the primary language drop down box and select the preferred language for translating to.

Step 7: When on the webpage that you want to translate click on Google translate picture on the address line and then select Translate this page. The page will then be converted to the language you selected.
