

## Pearson Sign-In Tips

**My student's Pearson account is giving me this message: My Sign-in is successful, but there is no information.**

*Your account has not been sign-out from your previous visit. Many times, the browser is closed out rather than signing-out of the Pearson account. Click on the words "sign-out" in the second paragraph. To receive the message "Signed-Out."*

*Next: Close the window, go back to ClassLink and click the Pearson app again. This time you will be directed straight to the site. The morale to this lesson is, please sign out when you are finished using Pearson and you will never see the Sign In screen.*
